Yann Allain

C/C++ Software Engineer — Student & Startup Founder

13 rue de l'artimon, 29900 Concarneau, Bretagne, France
Phone: (+33)677-361-067 — yann.allain@protonmail.com

Education

University of Western Brittany [New]
Brest, France
○ M.S in Embedded Systems Engineering
○ B.S in Computer Science and Engineering

Lycée Jean-Chaptal — College ✅
Quimper, France
○ Two-Years, Technical degree in Software Engineering

Technical Skills

Programming	DataBase	Projects Tools	Modelisation
C/C++ (Advanced)	MySQL	GanttProject	UML
Ada (Advanced)	SQLite	Git	MVC
Golang (Advanced)	Access	SVN	
Android Kotlin Java (Intermediate)	PL/SQL		
iOS Objective-C (Intermediate)			
ASM ARM, x86			

Experiences

Startup Founding — CarOS® Copilot app
Building a brand new kind of app for the worldwide drivers, who offer an Operating System like on the iOS device's screen to use when driving. The system offer some mini-apps to send message by voice, listen their favorite Spotify playlists, make calls, have the Waze's reports and even more. More infos: CarOSApp.com

Lab-STICC (CNRS Research Facility)
Performed team-based system design for complementing the Linux read-ahead prefetching system for SSD performance model. Implemented in the Linux kernel a machine learning system that prefetchs file pages with potentially I/O workload patterns. Experimented solution using TPC-H benchmark shows queries execution time reduced by 50%.

Made by a passionate and highly motivated french man. I want to offer my skills and my experiences to your enterprise. I like to work in a team based environment, to reach the goals with each part of the team and make the enterprise winning. About my passions? I like surfing, travel, learning new things and see the word with another angle.
